

ILCE successfully conducted Workshop "Lean Integrated Project Delivery (LIPD) Through Building Information Modeling (BIM)"

Delhi on 19 February 2011

Mumbai on 26 February 2011

The Principal Speakers –

Prof. Ashwin Mahalingam, IIT- Chennai

Prof. Koshy Varghese, IIT- Chennai

Other contributors –

Prof. Atul Khanzode – (USA)

Mr. Dean Reed - (USA)

Mr. Gaurav Shah – Tekla

Mr. M.K. Sunil - Autodesk

Mr. Sagar Gandhi – Progressive Consultants

Prof. Chandrasekar Iyer – IIT Delhi

Mr. Saha – Larsen & Toubro

Prof. Sawhney – (Australia)

Ms. Sonali Dhopte – Excelize Architectural Services Pvt Ltd.

The speakers brought home to the participants:

- The definition of BIM.
- The advantage of BIM in construction particularly in Lean Integrated Projects.
- Strategizing the procurement of BIM for first time users.

All these were brought home to the participants through Case Studies, Softwares and Demos, and Questions and Answers.

BIM is the FUTURE TOOL - Inescapable Lean Tool for Construction

Build the project first on Computer

Repeat again on the field.

All Project players hovering round the virtual model for improvement - *WOW!!!*

That is Lean Construction at its Very Best.

The program was rated by the participants from Excellent to Good.
