NEWS LETTER NO. 43-a

Innovative Product

Penetron India Pvt. Ltd introduces to readers Penetron Admix,

SHIFTING WATER PROOFING TO A BATCHING PLANT !!!

Traditional waterproofing of underground structures - BOX TYPE Waterproofing, membrane based waterproofing.

Time consuming, expensive, less reliable.

Now creating water tight underground structures using Integral Crystalline waterproofing admixtures.

90% reduction in Co-efficient of permeability of the concrete.

INTRODUCING WATERPROOFING WITH PENETRON ADMIX

Penetron Admix is added to the concrete mix at the time of batching creates in concrete a web of insoluble crystals which seals of all existing capillaries, micro-cracks and voids of up to 0.4mm for the lifetime of the concrete.

Effectively a waterproofing solution.
