ILCE and Nadhi Information Technologies have great pleasure to invite you to a workshop series

“Implementation of Lean Construction” For Real Estate and Their Contractors

Objectives:

Indian Construction Industry is facing fierce competition both from within as well as from players from abroad.

In such a scenario, high performance in cost, time and quality is becoming a must.

Lean Construction has been universally acknowledged as the best tool to bring in such efficiency in performance.

The said series of Workshop “Implementation of Lean Construction” is towards education for practicing Lean Construction to the engineers both in offices and in sites.

Period of Program:

The workshop is being organized in three different sessions with interval of 4 to 6 weeks in between.

The workshop is planned in three sessions and is structured as class room sessions.

Conclusion and Details of Program:

The workshop designed for participants to have good knowledge of tools and procedures of lean construction.

The take home from each session of the workshop is for the participants to have actionable items and templates with which they can practice lean construction in their own sites.

Homework assigned to each participant at end of each session.

The first workshop series is being offered for Real Estate Developers and their Contractors. A similar workshop series will be offered to Infrastructure Owners and EPC contractors soon.

Certificate of Participation in these workshops will be issued by ILCE and Nadhi Information Technologies Pvt Ltd.
