Bangalore Centre

Invitation

You are cordially invited for the Technical Lecture along with your friends.

Date	Friday, 23 rd May 2014		
Timing	6.00 PM-High Tea	6.30 PM to 8.00 PM –Lecture	8.00 PM to 8.30 PM Q&A
Venue Address	Seminar Hall, 2 nd Floor Bangalore Institute of Technology, K.R.Road, V.V.Puram, Bangalore 560004		
Technical Lecture	<p>◆ Concepts of Lean Construction by Mr. Sampath Parthasarathy - Secretary General, ILCE</p> <p>◆ Application of Lean Construction in India with Case Studies by Mr. Kalyan Vaidyanathan CEO, Nadhi Information Technologies</p>		
Brief about the Talk	<p>The Wastage of resource in the Construction Industry is reckoned as close to 50%!! Just imagine the huge gains that can be made by individual corporates, contracting firms, professional constructors, if even a fraction of this wastage can be avoided.</p> <p>Indian Construction industry is reckoned to be worth Rs. 6708 Billion in 2011-12 (official figure from planning commission data). And going by the global data, at 50%, the waste is a colossal figure. India has so far no focused Government initiative for addressing and mitigating this large wastage- an immense drain on our National Resources. However the good news is that an appreciable start has been made in India and ILCE is in the forefront of the same. ILCE is a not-for-profit organisation dedicated to the cause of Lean construction which, amongst its other huge benefits, basically aims at improving efficiency and reducing wastage.</p> <p>The lean construction movement has developed ground breaking theories and practices to improve construction efficiency, productivity, and reduce waste. Today there are well known companies outside India - both contractors and owners who have completely shifted their operating strategy to be based on lean construction after seeing the results derived from its application. Not only in developed countries, but even in developing economies these results have been observed. Please refer to enclosed detailed write-up for more information.</p>		
<p>Kindly send us your confirmation to aswathmu@yahoo.com or SMS to 9845262955</p>			

Looking forward to your participation

With Best Regards

Sampath Parthasarathy Secretary General, ILCE	Kalyan Vaidyanathan CEO, Nadhi Information Technologies	Dr. Aswath M U Professor, Bangalore Institute of Technology
