# INSTITUTE FOR LEAN CONSTRUCTION EXCELLENCE (ILCE)

All About Lean Construction  
And its Application  
(Basic Program)

Date : 23 July 2011

Venue : Sardar Patel College of  
Engineering,  
Seminar Hall No.119, 1st Flr.,  
Bhavan's Campus, Munshi Nagar,  
Andheri (W), Mumbai 400058

Founded in November 2008 as a non-profit company, ILCE's main objective is to introduce in India "Lean Construction" for the benefit of all stakeholders in the construction industry.

ILCE has great pleasure to present  
**“All About Lean Construction and its Application”**  
(Basic Program)  
Classroom approach.

The Principal Speakers :

**Mr. A. Peswani**  
**Construction Management**  
**Consultant**

**Mr. P. Sampath**  
**Director Construction(Rtd)**  
**Shapoorji Pallonji**

Lean Construction, by definition is to optimize value for any efforts, material, machinery, etc. we put in construction.

Lean Principles in manufacturing, retailing, and also in other fields had a dramatic impact on industry, performance - cost, time, delivery, etc.

Construction industry has lagged behind in the application of lean due to inherent nature of the work.

The wastage in construction (non value adding activities) is generally as much as 40-60 % whereas in manufacturing industry, it is hardly 15%

The western world, as well as China, Singapore and Korea are focusing on Lean Construction to reduce / mitigate this enormous wastage.

ILCE is the premier institute in India with the objective of bringing to the construction industry in India, knowledge of Lean Construction and its application.

**PRESENT PROGRAM** will address key issues

- Simple definition of Lean Construction
- Road Map for Lean Construction in site processes
- Road Map for Lean Construction in Partnership - Major cause of wastage
- Presentations in Lean Construction

**MAIN OBJECTIVE** : to bring in knowledge of Lean Practices in day to day practices for visible improvement in performance. Participants to go back with ready knowledge of application of Lean Practices in their own processes / site.

**WHO SHOULD ATTEND** :

- Top Management - major drivers for Lean Construction
- Practicing Engineers at site
- Planning Engineers /Project Mangers/
- Middle & Senior Management professionals/ Site Engineers
- Architects/Engineers/Consultants  
MEP Consultants /Contractors  
General Contractors
