HOME TRUTHS

Lean Construction loves continuous improvement
loves collaboration
hates hierarchical organization
likes repetitive work
loves JIT (Just In Time)
dislikes adversarialism
insists clarity of role (staff)
insists discipline (staff)
abhors chasers
loves simple structures (easy to build)
loves aesthetic product with simple elements
is good practices at site
is common sense in construction
likes any work done off site (pre-cast...)
loves standardization
believes in cheering
believes in small innovation happening regularly
dislikes laid back attitude
dislikes "make do" (starting work without resources)
is in everyone's interest except those who live off the waste
is toughest application but highest payouts
is no longer an option.
