NEWS LETTER:86

ILCE LEAN CONSTRUCTION CONFERENCE 2016

ILCE had outstanding success in its 2 days Conference which was held on 6th and 7th February 2015.

The Conference had 4 key note Speakers, 30 papers were presented in the conference, two most interesting Panel discussions etc.

The Conference had Participant strength of about 200 for both days of the conference.

Encouraged by the success of the Conference ILCE do want to this the conference to be an annual event.

ILCE can schedule a conference in February 2016.

But for same to be a success we do require presentation of case studies of Lean Construction Practices.

Before we embark on this ambitious effort we would require your response as to the contribution you would be making to the conference.

ILCE has now a panel of good Lean Construction Consultants who could render help to make the Lean Construction practice at your site very effectively followed by the case study presentation.

Many leading Companies have already installed Lean Construction Practices in some of their units. To name a few :[L&T](#), [Shapoorji & Pallonji](#), [Godrej & Boyce](#), [URC Construction](#), [Godrej Properties](#), [Afcons](#) etc.

The Ground performance showed uniformly vast improvement in performance these Projects.

Your Company too should be in Lean Construction (If not already there)

Your Company overall Performance can be improved.

It is a win win situation

Your response, please?

Regards

P.Sampath,

Secretary General
