IN ASSOCIATION WITH: **INSTITUTE FOR LEAN CONSTRUCTION EXCELLENCE (ILCE)**

# INDIAN LEAN CONSTRUCTION CONFERENCE

"Continuing on the Lean Journey for Indian Construction"

[www.web.iitm.ac.in/ilcc2017/](http://www.web.iitm.ac.in/ilcc2017/)

**Lean Practices Workshop**  
July 27, 2017

**Indian Lean Construction Conference**  
July 28 & 29, 2017

**Venue:** Centre for Industrial Consultancy & Sponsored Research Building  
(IC&SR), Indian Institute of Technology Madras, Chennai-600 036.

## ABOUT THE CONFERENCE

Adopting Lean concepts has enabled several construction projects around the world to experience significant improvements in productivity and profitability. Internationally, Lean Construction is becoming more and more popular to solve the many ailments of conventional project delivery. Today these concepts are also being implemented in the Indian Construction arena and many leading players have come forward to implement Lean Concepts in some form or other. To popularise the concepts of Lean Construction in India we had made a beginning with ILCC 2015 (Indian Lean Construction Conference) held in Mumbai in Feb, 2015 (<http://web.iitm.ac.in/ilcc2015>). ILCC 2017 is being organised to continue the Lean journey in India.

The main objective of ILCC 2017 Conference is to provide a common platform where Lean construction practitioners – owners, contractors, consultants, coaches, academics....., can share their experiences and go further on the path of successfully applying Lean concepts to construction. The conference will comprise International and Indian keynote and invited presentations, academic paper presentations and industrial case-studies on Lean principles across Planning, Engineering, Procurement and Construction. A Pre-conference Workshop will focus on practical implementation aspects with sessions from international and national lean coaches.

## ABSTRACTS

Papers and Posters are invited for the Conference. For formats and deadlines, please refer to the Conference web site. Registration details are also available in the web site. Conference Partners, Sponsors and Advertisers are welcome to contact the organisers for opportunities for partnering. Details of accommodation available near the venue as well as possibilities for pre- or post-conference tours are also available in the conference web site.

## CONFERENCE THEMES

- Production Planning and Control
- Waste Reduction in Construction
- Integrated Project Delivery
- Design Management for Lean
- Supply Chain Management
- Contract and Cost Management
- Building Information Modeling and Lean
- Safety and Lean
- Quality and Lean
- People, Culture and Change
- Teaching Lean Construction

## PARTICIPATION FEE

Early bird discount scheme expires on 07.05.2017 | After the deadline for Early bird registration, all fee will be 15% more

CATEGORY	CONFERENCE FEE*	WORKSHOP FEE*
